Kolkata Chapter of National Academy of Sciences, India (NASI) entrusted our association to conduct awareness program on cervical cancer among some of the rural women of the state and also carry on tests for early detection of the cancer among the women in collaboration with Chittaranjan National Cancer Institute, (CNCI Kolkata). We are deeply indebted to NASI and CNCI.

Dr. Samarendra Nath Banerjee, retired professor of Anandamohan College, Kolkata joined the association as Life member. We are proud to have him among us.
